Erika McClammy	Peabody Heights	410-235-6161
Belinda K. Conaway	Baltimore City Council	410-396-4810

The following items were discussed:

Item 2-1 Project Status – The project was awarded to Northeast Remsco on November 23, 2005. Actual sewer construction is not expected to begin until the spring of 2006. Some test pitting for existing utilities and utility relocation might take place before that.

Item 2-2 Project Notification – At least 3-weeks prior to sewer construction starting in a given area, informational fliers will be sent to residences letting everyone know that work will be beginning soon. Residents in these areas will also be invited to the next C.A.C. Meeting in this timeframe.

Item 2-3 Traffic Routes – The construction will result in traffic detours as shown in the contract drawings.

Item 2-4 Parking – Parking will often be prohibited in areas where construction is ongoing. The city is currently working with communities in an effort to locate alternate parking.

Item 2-5 Resident Inspector – The office location and phone number for the City's Resident Inspector on the project will be included on the City's website.

Item 2-6 2701 Charles Street – As requested we will take a close look at the building at 2701 Charles Street to see if any damage can be anticipated as a result of the construction.

Item 2-7 Pre-Construction Survey – Subsequent to this meeting the contractor has hired a firm to perform the pre-construction survey. As requested we will investigate the cost for individuals to obtain a copy of the video of their homes. A copy will also be kept at the Hampden Community Law Center.

Sanitary Contract # 800R  
January 31, 2005

Item 2-8 Fox and 28<sup>th</sup> Street – The City's investigation of this site shows no evidence of an underground stream in this location.

Item 2-9 Rodents – Steps to address concerns about rodent infestation as a result of this project will be taken prior to the contractor beginning work in a given area.

Item 2-10 Website – Subsequent to this meeting the project's website has been brought on line.

Item 2-11 Hopkins Project- A coordination meeting will be scheduled with Hopkins construction team in the near future

If anyone has any questions concerning these minuted please contact me at 410-396-1663.

MIKE SCHULTZ,  
Chief
